Good morning,

You will be critical to the discussion of the Kenosha and Sheboygan SPMs at the WDNR monthly call tomorrow morning. The monitors are SPMs and have been coded with a NAAQS exclusion code. Since they've been operating for more than 2 years, the monitors can/will be used for the 2015 ozone designations. Therefore, the NAAQS exclusion code needs to be removed. In order to do this, the EPA certification must be removed/changed first and then WDNR must remove the exclusion code. I think that's how it should work. Anyway, I hope that you'll be able to attend.

Thanks.

Jackie
